Industry specialist recruiter JMA Network is set to post a 45% increase in permanent fee revenues for the year ending 31st May 2010.

Clive Jefferys, MD stated: "We have seen strong sustained growth since Sept 2009. We focus on senior sales and technical recruitment, where the quality of individuals can shine through most clearly.

"Greatest demand is for people who can sell converged client solutions, and so the days of being a specialist in just voice or data are clearly numbered."
